

MINI PC - POWERFUL FULL-SIZED DESKTOP PERFORMANCE IN A COMPACT 4X4 FOOTPRINT

Small but powerful mini PC is designed for every day entertainment, kiosk, digital signage, and the workplace.

WHY YOU SHOULD BUY THE **MSI CUBI N**?

The Cubi N is the smallest mini PC of its kind packaged inside a footprint of 0.45 liter case that delivers all the elements of a full-sized desktop PC.

With the HDMI and VGA display port options, plug in and utilize dual monitors and improve your daily workflow.

The innovative fan-less heat dissipation design is silent and energy efficient. Less moving components lead to longer longevity and lifecycle with the Cubi N.

Mount the Cubi N to the back of your monitor easily to any standard VESA mount and declutter your workspace.

Easy to access and upgrade components to keep the system up-to-date with the latest hardware.

Equipped with the Braswell N processor, view high quality video in 4K UHD and experience the ultra-realistic visuals.

WHO NEEDS THE **MSI CUBI N**?

COMMERCIAL

Commercial businesses such as health care, retail and office spaces demanding exceptional reliability and dependability in a compact footprint computing.

EDUCATION

Higher educational computer labs that can endure heavy daily usage and provide high security protection.

HOSPITALITY

Hospitalities uses: hotels, guest lobbies and business centers, with a desire for exceptional durability.
